Ward Lumber to host Goat Night

Jay, NY: Ward Lumber is hosting a free Goat Night on Tuesday, July 10 at 6:30pm for anyone interested in learning more about or raising goats.

Topics of discussion include feeding, hoof and horn care, parasite management, mineral supplementation and diseases to watch out for.

The presenter is Rose Bartiss from Rose's Goats. Rose has been raising dairy goats near Vermontville, New York, for over 9 years. Over the years she has learned a lot of information and tips for raising happy and healthy goats. Rose loves to share the information she has learned to help goat owners and aspiring goat owners to take good care of their animals. Goats are intelligent, resourceful, funny, useful animals that have unique needs when compared to other farm livestock. In 2011, Rose started the Adirondack Goat Club to bring together goat owners and enthusiasts all over the area. The mission of the club is to create a network of people who can rely on each other for help with their goats, for the sharing of information and equipment, and for the sale and trade of quality animals.

Goat Night is a free seminar. Pizza and refreshments will be served, and there will be a prize drawing. Go to www.WardLumber.com for more information and to register.

Ward Lumber stocks Poulin Grain and Green Mountain Organic feeds for a variety of livestock including alpacas, poultry, equine, goat and swine. We are hosting this seminar and other livestock related seminars provide customers with information about raising & harvesting their own livestock.

Ward Lumber is a two-unit building materials supplier with locations in Jay and Malone, NY. One of the largest private employers in Essex County, Ward Lumber manages over 6,000 acres of timberland and operates one of New York State's largest white pine sawmills and planing mills.
