Ward Lumber offers free Insulated Concrete Foundation Seminar & Certification Training

Jay, NY. - Ward Lumber invites professional contractors and homeowners to register and attend a free Arxx Seminar on Thursday, June 5th from 12:30pm to 5:30pm at the Comfort Inn in Plattsburgh. This is an accredited training class that will teach pro contractors that want to become certified installers of Arxx Insulated Concrete Foundations and provide homeowners with information about the unique features and benefits of the Arxx product.

Arxx is an insulated concrete form used for poured concrete walls above and below grade. It's made of structural expanded polystyrene that remains in place after the concrete is poured providing durability, energy efficiency and the flexibility to turn a typically unfinished basement into a finished one living space. Learn how to reduce overall construction time and why Arxx is energy efficient and cost effective. Call Jim Rock, Training Manager, at 946-2110, ext. 125. Space is limited, so call today.

Ward Lumber is a four-unit building materials supplier with locations in Jay, Plattsburgh, Malone and Saranac Lake, NY. One of the largest private employers in Essex County, Ward Lumber manages over 5,000 acres of timberland and operates one of New York State's largest white pine sawmill and planing mill as well as a comprehensive Component Plant in Jay.
