## Kasson and Keller Expands Stimulus Product Offering

In accordance with The American Recovery and Reinvestment Act of 2009, home-owners who purchase windows or doors meeting or exceeding certain energy-efficiency requirements are eligible for a tax credit. The windows or doors must have a U-factor of 0.30 or lower and a Solar Heat Gain Coefficient of 0.30 or lower to qualify for the tax credit.

Kasson and Keller is proud to offer an expanded list of products which meet the energy-efficiency qualifications required for tax credit eligibility:

Our Manufacturer's  
Certification Statement  
is now available  
on our Website.
